

## SEGIP Diabetes Medication Therapy Management (MTM) Now Available to YOU!

*Program is an extension of the Diabetes MTM program currently offered to employees only*

### **The Program:**

- Provides health improvement and financial benefits to Minnesota Advantage Plan members with diabetes who are over 18.
- Is a partnership between you, your doctor, your health plan, Navitus, and MedEdgeRx (formerly UPlan Pharmacy Network).
- Provides a thorough review of your medications, helps you set goals, and work through reasons you may not be taking your medications as prescribed.
- Allows you to meet with your MTM pharmacist as needed, but at least twice a year.

### ***Your financial benefits are:***

- Full coverage of the cost for face-to-face consultations with a MTM pharmacist.
- Co-pay waived for formulary diabetes medications and formulary test supplies.

**Quick note** – on average a member spends \$343.55 annually for their diabetic medications and supplies. Having co-pays waived - that's a saving to you!

### ***Participating members have great things to say:***

“I am trying to heal from a major surgery and even though I feel like I am pretty knowledgeable about my diabetes I was really struggling. The pharmacist had suggestions which have made such a difference. I am so grateful to be able to join this program, not just as a cost savings, but to be able to add more resources to help me stay healthy and recover sooner. Thank you for all of your help, it is greatly appreciated.”

### **How to ENROLL:**

1. Choose a pharmacist from the [Directory of MTM Pharmacists](#) or at [www.mn.gov/MTM](http://www.mn.gov/MTM).
2. Make an appointment with that pharmacist.

Visit the program at [www.mn.gov/MTM](http://www.mn.gov/MTM), or call Navitus at 1-866-333-2757.
